Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 04 November 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Objections

1. Claim 1 is objected to because of the following informalities: line 9 should recite "plate **has** a first pattern". Appropriate correction is required.
2. Claim 6 is objected to because of the following informalities: the term "part" should be removed from line 2. Appropriate correction is required.
3. Claim 13 is objected to because of the following informalities: the term "part" should be removed from line 5. Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 3-8 and 11-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 3 and 4 are indefinite as they depend from cancelled claim 2. Thus it is unclear as to what claim they depend from and what limitations are included in the claims. Claim 5-8 depend from claim 4 and are thus similarly rejected.

Claims 11-13 are indefinite as they depend from cancelled claim 10. Thus it is unclear as to what claim they depend from and what limitations are included in the claims. Claim 14 depends from claim 13 and is thus similarly rejected.

6. Claim 25 recites the limitation "the second surface of the first light guiding plate" in line 2. There is insufficient antecedent basis for this limitation in the claim.

7. For the sake of the following art rejections, claims 3 and 4 are treated as depending from claim 1 and claims 11-13 are treated as depending from claim 1.

Claim Rejections - 35 USC § 102

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

9. Claims 22, 25, and 26 are rejected under 35 U.S.C. 102(b) as being anticipated by Tai et al. (U.S. Patent No. 5,926,601).

Tai et al. discloses a display device comprising :

a display panel 162 for displaying an image (figure 8C);

a light source 2' generating a light beam for the display panel (figure 1);

a first light guiding plate 28' adjoining the light source 2' and having a first pattern (trapezoid cross-section) for uniformly inducing the light beam (figure 1); and

a second light guiding plate 10 adjoining the first light plate 28' and having a second pattern (prism patterns along bottom surface of plate 10) for reflecting the light beam guided from the first light guiding plate 28' toward the display panel (figure 1).

With regard to claim 25, the second light guiding plate has a first surface 16 adjoining the first light guiding plate 28', a second surface 24' adjoining the display device, and a third surface 26' opposite the first surface, the second pattern formed on the third surface 26' (figure 1).

With regard to claim 26, the second pattern comprises a plurality of prism-shaped patterns inclined by an angle of 20 degrees to 30 degrees with respect to the second surface of the light guiding plate (figure 3).

Allowable Subject Matter

10. Claim 1 would be allowed if amended to correct the objection of section 1 above.
11. Claims 23, 24 and 27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
12. The following is a statement of reasons for the indication of allowable subject matter: Prior art of record fails to teach, disclose, or suggest, either alone or in combination:

a display device as claimed in claim 1 including a first light guiding plate guiding the light beam in a first direction, and a second light guiding plate adjoining the first light guiding plate guiding the light beam in a second direction perpendicular to the first direction wherein the second light guiding plate has a first pattern partially reflecting light from the first light guiding plate to the display panel, and partially transmitting light reflected by the display panel;

a display device as claimed in claim 23 wherein the first pattern is formed on a surface opposite the light source; or

a display device as claimed in claim 27 wherein each prism-shaped surface comprises a reflective surface and a transmissive surface.

Conclusion

13. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

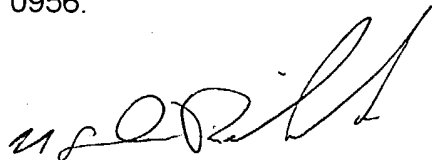

Art Unit: 2815

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
